

# AUDERROSE

# BIOGRAPHIE

AudeRose est une artiste multi-disciplinaire travaillant sur la performance, la photographie et les projections sonores. Elle présente régulièrement ses performances dans des festivals internationaux.

Her imagery plays with narrative structures, developing dreamy and intimate universes, exploring various forms of interplay between body, images in motion, deconstructive narrations and self-mythology. Her performances articulate live scenography protocols integrating projection as an environment medium, considering the black box as a possible oneiric space, where sounds and images communicate in a poetic and narrative journey.

Son imagerie joue avec des structures narratives, développe des univers intimes et oniriques, explore des formes diverses d'interactions entre le corps, les images en mouvement et les narrations. Ses performances articulent des protocoles de scénographie en direct intégrant la projection comme matière, considérant la boîte noire comme un espace onirique possible, où les sons et les images communiquent dans un voyage poétique et narratif.

Elle a développé plusieurs collaborations avec des musiciens internationaux, des programmeurs son et vidéo, produit une série de performances audio-visuel où elle manipule le temps et les images dans des structures évolutives.

Son travail oscille entre des outils digitaux ou analogues, combiné des techniques diverses entre vidéo live, électronique et sons acoustiques. Elle utilise souvent des rétroprojecteurs, des diapositives, machine à écrire, horloges qui sont amplifiés à l'aide de micro.

Fascinée par les images archaïques et les objets mécaniques, elle crée aussi les costumes et la scénographie cherchant à immerger l'audience dans une boîte à rêves.

# CV

## Formation
